

Samantha Eichelberger

Indiana, US | (260) 301-4371 | seichel.career@gmail.com | <https://s-eichelberger.github.io/Professional-Portfolio/alyst>

Operations Analyst | Compliance & Documentation Specialist | Process Improvement Professional

PROFESSIONAL SUMMARY

Operations leader with 15+ years driving process improvement, compliance, and workforce performance across manufacturing and remote environments. Proven track record of measurable results:

- Improved quality outcomes by 26% and increased CSAT from 84 to 95 through redesigned QA scorecards and customer engagement scripts
- Reduced operational processing time by 15% and reduced overtime costs via workflow analysis and scheduling optimization
- Managed full-cycle operations — payroll, scheduling, inventory, reporting — for 60+ employees
- Built SOPs, documentation systems, and dashboards supporting audit readiness and compliance

CORE EXPERTISE

Operations & Process Improvement: Operational Analysis • Workflow Optimization • Business Process Improvement • Process Mapping • Continuous Improvement • Operational Reporting • Cross-Functional Collaboration

Compliance & Documentation: Documentation Control • SOP Development • Policy & Procedure Management • Compliance Monitoring • Audit Support • CAPA • Corrective Actions

Data Analysis & Performance: KPI Reporting • Dashboard Development • Root Cause Analysis • Trend Analysis • Data Validation • Performance Metrics

Technical Proficiencies: Microsoft Excel • Google Sheets • Plex ERP • HubSpot CRM • Klayvio • WordPress • Microsoft Office Suite • Microsoft Teams • Slack

PROCESS IMPROVEMENT INITIATIVES

Improved Operational Quality

Designed and implemented structured quality scorecards that increased measurable quality performance by 26%, standardized evaluation criteria, and improved visibility into operational trends through KPI reporting.

Optimized Business Workflows

Analyzed existing workflows, identified process bottlenecks, and implemented standardized procedures that reduced operational processing time by 15% while improving cross-functional collaboration.

Strengthened Documentation & Compliance

Developed and maintained standardized operating procedures, work instructions, and operational documentation supporting audit readiness, process consistency, and workforce training.

Enhanced Operational Reporting

Created KPI dashboards and reporting tools that enabled leadership to monitor productivity, quality, retention, and operational performance, supporting data-driven decision-making.

PROFESSIONAL EXPERIENCE

Operations Supervisor | FCC (Adams), LLC

Sep 2025 – Apr 2026

- Analyzed production workflows to identify operational bottlenecks, reducing overtime costs and improving scheduling accuracy, resource utilization, and process consistency.
- Developed and maintained 20+ controlled SOPs, work instructions, and operational documents supporting standardized execution and audit readiness.
- Managed payroll validation, scheduling, inventory tracking, operational reporting, and workforce performance for more than 60 employees.
- Coordinated cross-functional improvement initiatives with Engineering, Maintenance, Finance, Quality, and Production teams.
- Led 15 root cause investigations and implemented corrective actions to reduce recurring issues

Customer Service Supervisor / Operations Analyst | FlexPro Meals (Remote) Mar 2023 – Apr 2025

- Improved quality outcomes by 26% and increased CSAT from 84 to 95 through redesigned QA scorecards and scenario-based customer engagement scripts.
- Developed KPI dashboards tracking productivity, customer experience, retention, quality, and operational performance.
- Reduced operational processing time by 15% through workflow audits and process analysis.
- Co-authored SOPs, knowledge base documentation, and training materials, onboarding 25 employees on standardized business processes.
- Supervised a team of 10, partnering with leadership to implement corrective action plans and strengthen operational consistency.
- Analyzed operational trends and performance data to support continuous improvement initiatives.

Team Lead | American Mitsuba

Jan 2012 – Mar 2023

- Supported operational excellence across 10+ production lines, analyzing processes, conducting quality inspections, and monitoring compliance with standardized work procedures.
- Collaborated with Engineering, Maintenance, and Operations teams to resolve production issues and improve workflow efficiency.
- Conducted daily machine audits and led monthly SOP updates to maintain documentation accuracy and audit readiness.
- Trained and supported teams of 8–14 associates per department on standardized work instructions, procedures, and quality requirements.
- Participated in Lean manufacturing initiatives targeting downtime and waste reduction across 10+ production lines.

KEY ACHIEVEMENTS

- 15+ years of operations, process improvement, and documentation experience across manufacturing and remote business environments
- Drove CSAT from 84 to 95 in under two years by introducing scenario-based customer engagement scripts adopted team-wide
- Led 15+ root cause investigations and corrective action initiatives, directly reducing recurring operational issues and downtime
- Authored and maintained 20+ SOPs and operational documents, strengthening audit readiness across two organizations
- Trained and supported teams of 8–14 associates per department across 10+ production lines, and onboarded 25 employees through co-authored training materials
- Led cross-functional initiatives spanning Operations, Engineering, Maintenance, Finance, Quality, and Customer Support
